

2024 Stateline Summer League

Stateline Summer League teams will practice one night a week and play one night a week. The purpose of the Stateline Summer League is to establish a league that's competitive enough for club players, but not too advanced for beginning players. Kids will be put on teams based on incoming grade and site location preferences. You may sign up individually or with friends. **The season will run from the week of June 17th through August 1st with the 4th of July week being off.** Cost for the season is \$175 and includes practice one night a week, match play one night a week, and a game t-shirt. 5th-10th graders may participate.
